PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 22nd October 1955

Special Notice

Attention of the public is invited to the Ministry of Commerce and Industry Notification No. S.R.O. 2076-(P&D-72(II)/55) dated the 16th September 1955 published in the Gazette of India, Part II, Section 3 dated the 24th September 1955 (page 1878) whereby the Central Government have amended their Notification No. S.R.O.681 dated the 23rd March 1955.

In accordance with the said notification dated the 16th September 1955, the Central Government have decided to open an Inspection Centre at the Forest Research Institute and Colleges, Dehra Dun.

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

6th October 1955

- 55547. The Midland Dynamo Company Limited. Improvements in or relating to armature winding machines.
- 55548. Rhein-Chemie A.G. Insecticides.
- 55549. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of producing crude hexachloro-cyclohexane.
- 55550. Standard Telephones and Cables Limited. Improvements in or relating to stranded conductors for electric cables. (18th March 1955).
- 55551. Standard Telephones and Cables Limited. Improvements in or relating to electric waveguide filters. (18th February 1955).
- 55552. Standard Telephones and Cables Limited. Improvements in or relating to stranded conductors for electric cables. (18th March 1955).
- 55553. Standard Telephones and Cables Limited. Improvements in or relating to telegraph exchange systems. (23rd January 1953). [Divisional date, January 22, 1954.].
- 55554. Creed and Company Limited. Facsimile apparatus for use in producing tickets, messages and the like.
- 55555. Creed and Company Limited. Method and means to overcome delay distortion.
- 55556. Maschinenfabrik Augsburg-Nürnberg A. G. A. method for the injection of fuel and the formation of the mixture in compression-ignition internal-combustion engines, in particular diesel engines.
- 55557. H. Gerdes. A container for the storage of water-repellent liquids.
- 55558. Dr. R. S. Dubey and S. S. Mavi. Improvements in or relating to the heating and/or concentration of liquids.

7th October 1955

- 55559. Council of Scientific and Industrial Research. Modification of a process for the utilization of mica and meaceous substances for the manufacture of heat insulating bricks, slabs, tiles or like products. [Addition to No. 48667]

8th October 1955

- 55560. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to cold-gas refrigerating apparatus. [Divisional date, February 25, 1955.]
- 55561. Western Electric Company, Incorporated. Improvements in or relating to electromagnetic wave devices such as travelling wave tubes. (9th February 1954). [Addition to No. 52735.] [Divisional date, September 13, 1954.]
- 55562. E. Loos. Improvements in or relating to the preparation of dry fire-extinguishing powders which are effective on all classes of fires.

- 55563. Kienzle Apparate GMBH. Taximeter.
- 55564. Tecalemit Limited. Improvements in liquid distribution systems and injectors for use in such systems.
- 55565. The English Electric Company Limited. Improvements in and relating to surge tanks.

10th October 1955

- 55566. K. N. Kelkar. A universal machine for manufacturing wooden footrules.
- 55567. K. N. Kelkar. Hand machine for footrule printing.
- 55568. G. B. Tommasi. Improvements in or relating to fission processes.
- 55569. British Insulated Callender's Cables Limited. Improvements in the manufacture of metal tubing for use in the manufacture of electric cables. (25th October 1954). [Addition to No. 46673.].
- 55570. M. Wegner. Process and device for the production of a protective surface coating.
- 55571. Food Machinery and Chemical Corporation. Fractionating a solution containing more than one solute.
- 55572. H. Epstein. Weaving tool.
- 55573. Dunlop Rubber Company Limited. Apparatus for testing tubeless tyres. (21st October 1954).
- 55574. The English Electric Company Limited. Improvements in and relating to electric motor control systems. (22nd October 1954).
- 55575. E. K. Cole Limited. An improved knob assembly for television receivers, radio receivers or the like. (19th October 1954).
- 55576. The Permutit Company Limited. Improvements in cation-exchange resins. (4th November 1954).
- 55577. Douglas Fraser and Sons Limited. Improvements in machines for winding thread, yarn and the like. (11th October 1954).

55578. The Wellcome Foundation Limited. Improvements in or relating to piperazine quaternary salts. (2nd September 1955).

55579. Western Electric Company, Incorporated. Stereophonic system. (18th May 1955).

55580. Western Electric Company Incorporated. Improvements in electric circuits including amplitude limiting devices. (8th June 1955).

55581. W. J. E. Hopchet. Method for the construction of walls and buliding elements therefor.

55582. Goetzewerke Friedrich Goetze Aktiengesellschaft. Improvements relating to lathes.

55583. Societe Anonyme Usines Emile Henricot. Tube mill.

55584. Ciba Limited. Manufacture of new esters.

55585. S. B. Chatterjee. Portable profiling/forming attachment.

11th October 1955

55586. Javali Vithal Roy. An improved electrical dry-cell torch light.

55587. Deutsche Gold-und Silber-Scheideanstalt vormals Roessler. Process for the manufacture of thiophenylpyridylamines. (16th September 1955).

55588. Georg Fischer Aktiengesellschaft. Method and means for cooling and simultaneously drying granular masses containing evaporable liquid.

55589. Imperial Chemical Industries Limited. A new halohydrocarbon and methods of making the same. (20th October 1954).

55590. H. W. Burrington. Method and apparatus for manufacturing mineral wool.

55591. Societe Des Usines Chimiques Rhone-Poulenc. New phenthiazine derivatives and their preparation. (17th November 1954).

55592. American Chemical Paint Company. Improvements in or relating to the production of coatings on stainless steel. (31st December 1954).

55593. R. W. Taccone. A molding apparatus.

55594. Ciba Limited. Manufacture of oxy-halogen-pregnanes.

12th October 1955

55595. Sulphates Limited. Improvements relating to the production of aluminium sulphate. (14th October 1954).

55596. Helix Electrical Products Pty. Limited. Valved package usable for holding liquids. (29th October 1954).

55597. Chas. Pfizer & Co., Inc. Antimicrobial agents and the preparation thereof.

55598. Colgate-Palmolive Company. Dental preparations. [Addition to No. 48155.]

55599. The Mullard Radio Valve Company Limited. Improvements in and relating to loading coil arrangements. (14th October 1954).

55600. Ciba Limited. Manufacture of hydroxy-pregnanes.

55601. Ciba Limited. Manufacture of oxy-halogen-pregnanes.

55602. Council of Scientific and Industrial Research. A brick or block making machine.

Alteration of date

54506. Ante-dated to 28th July 1954, under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patent and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The date shown in crescent brackets are the dates allowed under Section 78-A of the Act.

51072. The Brush Electrical Engineering Company Limited. Improvements in or relating to electrical control systems. (20th January 1953). Accepted on 6th October 1955.

A current or voltage obtained from a current or voltage to be controlled is made dependent on frequency and is compared with a reference voltage or current also dependent on frequency for the purpose of obtaining a balance value not affected by frequency.

51434. SNIA VISCOSA Societa Nazionale Industria Applicazioni Viscosa. Process for the preparation of cellulose from sugar cane waste. Accepted on 6th October 1955.

Vegetable material is subjected to moderately alkaline treatment, subsequently an alkaline cooking and finally a bleaching.

51523. The Benjamin Electric Limited. Improvements in electric lighting fittings namely for making electrical and mechanical couplings. Accepted on 7th October 1955.

Having crown member and detachable housing member, both having electric connector which are automatically separated when the housing member is detached, both members having co-operating parts forming a hinge between the members, latching means on one said member with a cam surface and guiding means on the other member to be engaged by the latching means.

51640. United States Steel Corporation. Electrostatic coating apparatus. Accepted on 6th October 1955.

Workpiece to be coated travels through a cabinet and means are provided for delivering a mist of coating material.

51645. Aktiebolaget Separator. A method and apparatus for continuous preparation of chemical products. Accepted on 6th October 1955.

Preformed product in the form of an uninterrupted flow of fluid material is kept in constant circulation in a particular circuit to which one of the reaction components is added.

51650. Vandervell Products Limited. Improvements relating to electrode position. (27th April 1953). Accepted on 6th October 1955.

Solution contains a controlling agent and the process is carried at a pH between 3 and 10.5.

51711. The Champion Paper Company Ltd. Method and apparatus for coating paper. Accepted on 6th October 1955.

Continuously applying a webbed excess of fluid coating material to a rubber-covered roller, removing the surplus coating and transferring the remaining onto a moving paper web.

51713. G.N.R.D. Patent Holdings Limited. Improvements in the preparation of 11-oxygenated steroids. (28th April 1953). Accepted on 11th October 1955.

Dehalogenating halogenated 11:12-epoxy-steroid, treating the product with hydrohalic acid and dehalogenating the 12 α -halo-11 β -hydroxysteroid thus obtained after oxidation of 11 β -hydroxy group.

51719. Microcell Limited, A.E.C. Denovan, D. J. Hodgson and H. Kremer. Improvements in or relating to projectors for guiding the initial path of missiles. Accepted on 11th October 1955.

Comprising of a tube of reinforced synthetic resinous plastic material.

51720. Microcell Limited, A.E.C. Denovan, D. J. Hodgson and H. Kremer. Improvements in or relating to pressure vessels. Accepted on 11th October 1955.

Vessel made of synthetic resin having affinity for glass fibre and having glass fibres incorporated therein as a reinforcing agent.

51736. Morgardshammars Mek. Verkstads Aktiebolag. Improvements in or relating to rolling mills. Accepted on 10th October 1955.
- Consisting in the combination with a finish stand, of shears, a cooling bed, guide means and switch means.*
51757. Continental Can Company Incorporated. Art of making closure seals by molding and curing. Accepted on 7th October 1955.
- Comprises a crown shell, depositing a measured quantity of semi-liquid pasty mass, heating the mass and pressing a heated shaping surface upon the mass.*
51758. Continental Can Company Incorporated. Method of forming closure caps by molding and partially fluxing a paste resin composition with subsequent final fluxing thereafter. Accepted on 7th October 1955.
- Comprises depositing at a temperature of fluid flow into a crown shell, a measured quantity of resin paste, pressing a heated shaping surface against the deposit.*
51795. (Mrs.) Hedwig Alice Wallimann, nec. Hunziker. Improvements in and relating to rotary engines, pumps, blowers or the like. Accepted on 6th October 1955.
- Stationary drum surrounded by eccentric rotary casing; slidable vanes in casing contacting the drum dividing the crescent shaped space into sealed compartments; rockable inserts in vanes facing the drum and parts in drum for supply and discharge of working medium.*
51849. Saunders Valve Company Limited. Improvements in or relating to diaphragm valves and diaphragms therefor. (13th May 1953). Accepted on 10th October 1955.
- Characterised by axial section such that when diaphragm is free part of clamped margin continues the slope of the side of the cone.*
51864. Ciba Limited. Manufacture of new aminopyridazone-(6)-compounds. Accepted on 10th October 1955.
- Taking an amino-pyridazone-(6)-compound containing a phenyl residue, an alkyl substituted amino group and a group convertible into a lower aliphatically etherified hydroxyl group and converting this latter group into such hydroxyl group.*
51913. Graetz Kommandit-Gesellschaft. Spanner with adjusting-gauge. Accepted on 6th October 1955.
- Its shaft having profiled steps formed as gauge sizes and the end of the shaft has a screw-driver-like step with a gap in its middle.*
52081. Imperial Chemical Industries Limited. Improvements in or relating to the melting of high melting point metals or alloys. (19th June 1953). Accepted on 11th October 1955.
- Arc is struck between an electrode and surface of the charge to be melted and position of the arc is adjusted by electro magnets.*
52082. S. Steuerman. Method of and means for compacting soil. Accepted on 6th October 1955.
- Forming a cavity in the soil, adding to this cavity granular material of grains different in size, subjecting the soil and grains to vibrations while introducing a liquid to flow inside the soil and continuing the treatment until the soil and grains are thoroughly compacted.*
52179. The Birmingham Small Arms Company Limited. Improvements in or relating to power transmission devices for pedal cycles. (24th June 1953). Accepted on 10th October 1955.
- Crankcase of engine provided with cover members of circular form enclosing hub, gearing and clutch and extend within a brake drum constituting part of the wheel.*
52334. Ciba Limited. Hormone preparations. Accepted on 12th October 1955.
- The preparations contain testosterone undecylenate, testosterone, valerate, testosterone propionate and a pharmaceutical carrier.*
52434. Ciba Limited. Manufacture of new esters. Accepted on 6th October 1955.
- Reacting a benzoic acid substituted in the p-position with a poly-(1:2)-glycol or a functional derivative thereof.*
52444. Columbia Ribbon and Carbon Manufacturing Company, Inc. Planographic printing. (26th October 1953). Accepted on 7th October 1955.
- Comprising untreated paper base carrying coating of hydrophilic oleophobic colloid and in superposition a coating of colloid free from filler which is image-receptive and hydrophilic when dry and image-retentive but greasy-ink repellent when wet.*
52450. Ciba Limited. Manufacture of polyoxygenated steroids. Accepted on 12th October 1955.
- By reacting a steroid which is non-oxygenated in atleast two of the 11-, 17-, and 21-positions, with enzymes from fungi capable of introducing oxygen in the said positions.*
52604. Tyre Equipment and Reconditioning Company Limited. Apparatus for moulding or remoulding pneumatic tyre covers. (17th December 1953). Accepted on 7th October 1955.
- Comprising a pair of complementary annular side plates each having a moulding surface, co-operating with tread rings of different diameters and heating means associated with outer periphery of the ring.*
52714. Aschaffenburg Zellstoffwerke Aktiengesellschaft. Process for the treatment of sugar cane bagasse for the manufacture of paper. Accepted on 7th October 1955.
- Digesting bagasse incompletely with alkali sulphite, removing the outer skin, subjecting the separated fibres to special treatments such as grinding.*
52719. Uniton Limited and G. C. Wright. Improvements in building slabs. Accepted on 6th October 1955.
- Consisting of a flat straight-sided slab body reinforced along two opposite edges by metal channel-section members provided with ribs and complementary recesses.*
53010. N. V. De Bataafsche Petroleum Maatschappij. Lubricating composition. Accepted on 7th October 1955.
- The composition comprises a major portion of lubricating oil and a minor proportion of a copolymer of a heterocyclic base with a non-heterocyclic unsaturated organic compound.*
53044. E. K. Cole Limited. An improved combined optical and magnetic sound translating head assembly for cinematograph projection. (14th November 1953). Accepted on 7th October 1955.
- Comprising container part of which constituting a film guide and within which are housed magnetic sound translating head and optical sound track scanning apparatus the outer wall having apertures by means of which sound record film over said film guide may be brought into close proximity with said head and apparatus and an electric switch means bringing into operation either the said head or apparatus.*
53150. Revertex Limited. Improvements in or relating to the concentration of aqueous rubber dispersions. (24th December 1953). Accepted on 10th October 1955.
- Aqueous dispersion is frozen between -5 and -20°C and separated into all rubber fraction and all ice fraction.*
53162. The Monotype Corporation Limited. Improvements in or relating to moulds for casting single-type bodies. Accepted on 7th October 1955.
- The movements of the cut-off blade are determined by pneumatic devices and its actuation is also affected by pneumatic devices.*
53216. Albright & Wilson Limited. Ethylenimine methylol-phosphorus polymers. Accepted on 11th October 1955.
- Reacting one or more phosphorus compound with an ethylenimine compound.*

53470. "Licencia" Talalmanyokat Ertekesito Vallalat. Apparatus for testing materials such as doughs. Accepted on 10th October 1955.

Comprising common kneading means, common tensile testing means, plurality of interchangeable receptacle means with chamber for receiving tensile test specimen and forming counter-part of said kneading means and tensile testing means respectively, and switch for intermittently advancing the receptacle means to the kneading means and tensile testing means respectively.

53511. D. Y. Godambe. An improved corn mill. Accepted on 7th October 1955.

Stationary revolving discs fitted to rear end of shaft of conical pyramid feed worm with perpendicular edges within a casing and having grooved wheeled handle on other end.

53583. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Method for the preparation of α -tocopherol and esters thereof. Accepted on 10th October 1955.

Phytyl chloride is condensed with trimethyl hydroquinone in the presence of BF_3 and the product esterified.

53689. Sylvania Electric Products Inc. An improved photo-flash lamp and method of making it. Accepted on 7th October 1955.

Comprising transparent envelope hermetically connected to a metallic base cap and containing gas at superatmospheric pressure, the lamp forming a shotgun shell-like structure.

53896. Villamosipari Kozponti Kutato Laboratorium. (In English: Central Research Laboratory for Electrical Industry). Continuous thickness gauge for ferromagnetic materials. Accepted on 10th October 1955.

The material to be gauged is subjected to alternating magnetic field inducing magnetic flux in the material proportional to its cross-section, electric signals is derived from the induced flux and indicated.

53908. The Chloride Electrical Storage Company Limited. Improvements relating to microporous thermoplastic materials. Accepted on 7th October 1955.

Subjecting the sheet of microporous thermoplastic material for a brief period to a hot zone and then conveying it to a zone of rapid cooling.

53921. Enfield Cables Limited and S. Chaplin. Improvements in or relating to ventilating apparatus. (3rd March 1954). Accepted on 6th October 1955.

Using a fan wherein a duct provided within the air screw blade communicates at the blade root with an air-supply or air-exhaust duct.

53933. Chemie Grünenthal G.m.b.H. New antibiotic products and method of manufacturing same. Accepted on 7th October 1955.

A basic antibiotic produced by a species of Streptomyces is reacted or worked up with pantothenic acid or a derivative thereof.

53935. O. C. Eckel. Door body. Accepted on 12th October 1955.

Comprises two sheets of compliant material spaced apart and a plurality of separator members between said sheets.

54108. N. V. De Bataafsche Petroleum Maatschappij. Jet fuel composition. Accepted on 11th October 1955.

Containing foam-inhibiting fluorocarbon.

54131. Imperial Chemical Industries Limited. Manufacture of natural and synthetic rubbers and rubber articles and latices. (9th April 1954). Accepted on 6th October 1955.

Incorporation of 2-allylphenol carrying in the 4 position an alkoxyl substituent with not more than 12 carbon atoms in rubber articles.

54196. Reconstruction Supplies Limited. Improved locking means for doors of autoclaves and the like. (2nd April 1954). Accepted on 10th October 1955.

Plurality of locking bolts moved into locking position and maintained there by fluid pressure means.

54304. Metropolitan-Vickers-Grns., Limited. Improvements relating to arrangements for controlling speed of a wagon in gravity operated railway

marshalling yards. (4th May 1954). Accepted on 10th October 1955.

Speed of Wagon controlled in dependence on the distance which the wagon has to run into the siding and on the running characteristic of the wagon.

54397. Glencoe Manufacturing Company. Means for mounting an agricultural implement. Accepted on 11th October 1955.

Two channel shaped mountings adjustable upon a cross member permit lateral adjustment of implement along length of cross member.

54497. Cromelite (India) Limited. An armed folding chair. Accepted on 7th October 1955.

Comprising a seat back rest, arms and legs, to the extended end of one leg and back rest, the arm rest is pivotally connected, two legs on either side are connected by independent links, back and seat arc also pivotally connected to each other and to the leg.

54506. Ciba Limited. Pharmaceutical preparations containing new esters. [Divisional date, July 28, 1954]. Accepted on 6th October 1955.

Comprising an ester of a benzoic acid substituted in the para-position, together with a pharmaceutical carrier.

54514. J. M. Cooper. Improvements in or relating to cookers. Accepted on 7th October 1955.

Consisting of a shallow vessel, a container for articles of food, a support for the container, and a covering vessel which is inverted on container and support and which rests on the shallow vessels.

54698. The English Electric Company Limited. Improvements relating to dynamo-electric machines. (23rd June 1954). Accepted on 10th October 1955.

External cooling fan mounted on separate shaft driven from machine shaft through coupling means in slipping or commutator housing; drive engaged or disengaged solely by axial movement of the separate shaft relative to machine shaft.

55052. Dunlop Rubber Company Limited. Improvements relating to seating. (12th August 1954). Accepted on 11th October 1955.

A rigid cushion base has an aperture co-existent with seating area and has attached to it a resilient support.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

49188. 49383. 49410. 49483. 49802. 49873. 49929. 49961. 50010. 50108. 50207. 50278. 50532. 50577. 51006. 51007. 51008. 51009. 51010. 51011. 51152. 51153. 51232. 51278. 51337. 51356. 51445. 51618. 51658. 51780. 51837. 51845. 51971. 52021. 52078. 52108. 52184. 52255. 52330. 52455. 52464. 52496. 52546.

Patents Sealed

50027. 50028. 50030. 50059. 50328. 50445. 50512. 50609. 50616. 50638. 50642. 50648. 50662. 50923. 50984. 51001. 51126. 51156. 51340. 51730. 52147. 52400. 52618. 52644. 52676. 52761. 52990. 53066. 53134. 53135. 53664. 53712.

Amendment Proceedings

(1)

The amendment proposed by Ruhrgas Aktiengesellschaft in respect of Patent No. 49992 as advertised in the Gazette of India, Part III, Section 2, dated the 2nd July 1955 has been allowed.

(2)

The amendment proposed by "Shell" Refining and Marketing Company Limited, in respect of Patent application No. 51566 as advertised in the Gazette of India, Part III, Section 2, dated 9th July 1955 has been allowed.

(3)

The amendment proposed by "Shell" Refining and Marketing Company Limited, in respect of Patent application No. 52349 as advertised in the Gazette of India,

Part III, Section 2, dated the 9th July 1955, has been allowed.

(4)

The amendment proposed by "Shell" Refining and Marketing Company Limited, in respect of Patent application No. 52964 as advertised in the Gazette of India, Part III, Section 2, dated the 9th July 1955, has been allowed.

(5)

The request for amendment of the specification in respect of Patent No. 51382, which was notified in Part III, Section 2 of the Gazette of India dated 21st May 1955 is abandoned.

Registration of Assignments, Licences etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

38307. Metropolitan-Vickers Electrical Company Limited.
43550. Voltas Limited.
